

Band, Grade 5

Time on Task: 3.45 hours per week

Course Philosophy

Fine arts demonstrate the creative aspects of created man that directly reflect that characteristic of the Creator. The study of fine arts develops in the student the ability to speak life into that which does not yet exist. The ultimate outcome is the development of the student's ability to bring glory to God as He observes His creative nature returning to Him from His creation.

Course Description

Four basic strands--perception, creative expression/ performance, historical and cultural heritage, and critical evaluation--provide broad, unifying structures for organizing the knowledge and skills students are expected to acquire. In music, students develop their intellect and refine their emotions, understanding the cultural and creative nature of musical artistry and making connections among music, the other arts, technology, and other aspects of social life. Through creative performance, students apply the expressive technical skills of music and critical-thinking skills to evaluate multiple forms of problem solving.
