

Bible Curriculum, Grade 8

Course Philosophy

The study of the Bible enables students to focus on the reasoning behind the faith decision they have made. It gives them a solid foundation in apologetics. Through Bible study, relationships with the Lord are strengthened and deepened. Students come to understand church history and are able to recognize the evidence that supports the accuracy of the Bible. Everything learned in Bible class should be one more step on a journey to an irrevocable decision to not only be a faithful believer in Christ but to be able to refute the arguments, philosophies, and methodologies of secular humanism and other major world religions. It is Bible study, leading to a relationship with the Lord Jesus Christ, that enables believers to become who God called them to be, worshippers empowered for a lifetime of faith and service.

Lightbearers Summit Ministries

Course Description

The Lightbearer's curriculum is designed to help students see everything in life through a biblical worldview. This curriculum answers difficult questions such as, "Where did everything come from?, Who am I?, Why are we here?, What's right and wrong and Who decides?, and finally, What happens when I die?" Through a biblical worldview, students will be able to determine how to interpret and respond to events in life. Lightbearer's curriculum also provides evidence that the Bible provides all the answers to life's questions. Along with providing answers and evidence, Lightbearer's also opens the student's eyes to consequences, both positive and negative. In its fullest sense, Lightbearers stands to complete two objectives: the first, to help students be on the defense in not being deceived by the world's anti-Christian worldviews; and secondly, to be on the offensive by training and actively living a life of truth in a culture of relativism and confusion. Lightbearers provides a constructive and productive "rite of passage" in passing on the torch from one generation to the next, enabling students to shape the future of the world.
